THE INSPIRATION

"All birds find shelter during the rain, but the eagle, avoids rain by flying above the clouds.

Problems are common but it is the attitude that makes the difference."
- A.P.J. Abdul Kalam

To inculcate this attitude Scholar Mission School empowers the students to acquire, demonstrate, articulate and value knowledge and skills that will support them, as lifelong learners and contribute to the global world and practice the core values of the school.

Scholar Mission School is a unique venture by RPS Scholar Foundation, situated in Kanpur, Uttar Pradesh. Taking up the responsibility of facilitating education to the next generation and making learning a joyful process of discovery.

We honour the uniqueness of each child and embrace diverse backgrounds, values to build a strong, inclusive community; we prepare children to live in a multi cultural society.

We are committed to reflect evaluation, evolution and innovation as the means to improve teaching and learning. We aspire to celebrate the vitality of adolescence and the abundant possibilities, intellectual growth and personal achievement. Every opportunity promotes an atmosphere in which each child has a positive self image, where individual achievements are valued by all.

For instilling values in students, Scholar Mission School Kanpur has adopted under privileged children to double the joy of caring and sharing and emblazone the light of education.

We offer a safe, nurturing school environment and a culture of mutual respect based on the responsive classroom approach to social and emotional development. In order to develop interactive, authentic assessment of the students' work, is what we strive for, at Scholar Mission School.

MUSIC ROOM

The centre with a host of musical instruments such as guitar, drums, tabla and keyboard trains the students in Indian Classical, Western Classical, Contemporary Vocal and Instrumental Music.

DANCE ROOM

"Music can change the world, because it can change people."

Music offers creative challenges and aesthetic appreciation as well as self expression and self discovery opportunities.

To foster emotional and practical maturity, personal and intellectual development in students, SMS emphasizes on imparting dance lessons in classical, folk and western genres. Dance is a form of art in which we never fall short in finding and promoting individual's talent

CANTEEN

The principle ingredients of all food items of the school canteen are hygiene and nutrition. Proper care is taken of taste and flavour so that the children can relish a variety of delectable dishes.

OTHER FACILITIES

The path to excellence is built on robust infrastructure, proper guidance and world-class amenities. At Scholar Mission School, the facilities offered are in sync with the demands of the future that will help a student to stand out in every sphere of life.

CHAIRMAN'S MESSAGE

*“ Education is the passport to the future,
for tomorrow belongs to those who prepare for it today.”*

It gives me immense pleasure and a sense of satisfaction to acknowledge the part Scholar Mission plays in strengthening our tomorrow. The children of today are the torchbearers of our future. Education is the tool that provides them with the light and leads them on the right path. Here, at Scholar Mission, we aim to equip our children with the right tools for a brighter future.

The world is moving at supersonic speed and we must evolve with it. The growth is symbiotic, we learn from each other. Education is no longer limited to just academics, but an overall personality development. Extra- curricular activities, involving sports, music, dance and much more along with inculcation of basic human values, have become an integral part of our education of basic human values, have become an integral part of our education system. And I'm proud to say that every person here, at scholar Mission works tirelessly to groom every facets of our students.

I would like to extend my best wishes to all the students, and I believe that each child, in it's own way will bring laurels to the school.

I would also like to thank parents who put their faith in us by placing your child in our care, you have chosen to be a part of our family and I can assure you that we shall all learn and grow together.

Mr. J.P. Sharma

SPORTS COMPLEX

A 'wealthy' mind is complemented with a healthy body and a healthy body is gained from daily exercises and sports. The sports complex has all the facilities for major sports like cricket, football and athletics with designated grounds for each. It also possesses courts for basketball, badminton, lawn tennis, and Volleyball. The other features of the sports complex are a splash pool for junior students, a grand swimming pool for the seniors and a gymnasium which is accessible to all the children.

INFIRMARY

At school the children are safeguarded at all times with a medical and health facility centre. The school has a four bedded infirmary with a trained doctor and trained staff nurses to provide all possible medical care at the time of emergencies. Health record is maintained for each child.

RPS SCHOLAR FOUNDATION

The Cornerstone

RPS Scholar Foundation's ideology to serve the nation takes its wings with Scholar Mission School coming into being. Promoted by an eminent person, Mr. J. P. Sharma, a renowned businessman and a philanthropist at heart, the organisation is established in the city of Kanpur, Uttar Pradesh, with the sole purpose of responding to the call of social responsibility, the call of humanity.

(Member Secretary Principal)

From PRINCIPAL'S DESK

"Education is not preparation for life but, Education is life itself."

Dr. Reeta Saxena
Principal

The adults of today with their education and experience of yesterday have to prepare students for tomorrow. The most important skills to be developed among students is 'the ability to learn, unlearn and relearn' and the ability to source information and resources as and when required.

Scholar Mission is a breath of fresh air for 'Generation Next'. We have turned the classroom into a vibrant stage where effervescent children love to perform. We attend to the specific needs of each child. Here education is not teacher - centric any longer, it endorses experience - centric and student - centric learning based on learning by doing theory, where teacher is not an instructor but a facilitator in a true sense.

The task of preparing the students for life is undoubtedly arduous and challenging but its fruitful results make it worthwhile. Educationists and parents today, cradle the future of not only our children, but of the nation at large. For the smart kids of the next generation, we need smart - technology with smart teachers.

Gone are the days when students could be treated as wells of vacuum, requiring a filling up of factual details.

At Scholar Mission, we believe that knowledge is not a dull chapter that is a must to be instilled in impressionable minds to make them succeed in an unending rat race. Rather, for us it is transfusing the love of learning in such a way that text-books become the passport to the world of possibilities, a chronicle to discovery and the origin of inspiration.

04

LANGUAGE LAB

Scholar Mission School also has the facility of a Language Laboratory. This audio-visual aid in modern language teaching that comes with audio, video, internet, games and much more, makes learning faster and more engaging.

ROBOTICS LAB

Robotics club at Scholar Mission School, is a year-long program aiming at implementing technology enhanced learning in classrooms. We provide an opportunity to rediscover and redesign learning by engaging students in an inquiry based approach to collaborate and be creative in solving open ended robotics challenges. We aim to promote robotics as a tool for application of concepts learnt by students in classrooms using STEM (Science, Technology, Engineering and Mathematics) integration by creating multiple intelligence based learning environment.

MATHS LAB

Our Math Lab equips the 21st century learners with activity based learning and creates a challenging atmosphere for students to hone their mathematical skills. A variety of modern and colourful apparatus helps in making teaching and learning of the subject interactive, fun filled and joyful. Learning of mathematical concepts through concrete materials, hands-on-experiences and real life situations help to enhance analytical and critical thinking of the learners.

13

LABORATORIES

Profound knowledge has its roots not only in theoretical knowledge but also in knowledge that is practical. The combination of the two is indispensable for a child's all-round development. Our well- equipped laboratories in various disciplines are ideal for focusing on practical knowledge in a student- friendly ambience.

The School premise houses the laboratories of three basic building blocks for general Science.

◆ Physics ◆ Chemistry ◆ Biology

12

VISION

At the heart of our ethos is our philosophy of being ambitious for our students to create a learning experience that leads to academic success for every student and also to nurture the key skills which will enable them to succeed anywhere in the world once they step out from the shelter of the school.

Education is a global phenomenon, where we seek excellence, wherever it is to be found and use it to raise our standard. It is our constant endeavor to instill qualities of judgement, self reliance, integrity and self discipline in our students.

We also wish to develop in our students a consciousness of the needs of society and a desire to contribute positively through selfless service, putting the totality of God given talents and acquire knowledge to the service of humanity. We aim to lay foundation of a lifelong educational experience, which will give individual confidence and respect that will overcome all distinctions of race, class and creed.

MISSION

To nurture young minds to focus on their holistic development and to develop their conducive learning environment that inspires excellence and encourages high performance.

We promote a safe, caring and supportive environment where every person can learn from and respect one another.

We wish to induce in our students the ability to reach out to serve and help people in need and be driven by comparison in their hearts and purity of mind. Conscious efforts are made to develop the virtue of compassion of our students.

We believe, it is the duty of educators to inspire students and facilitate their cognitive stimulation and development.

05

LIBRARY

The thirst of knowledge is further quenched by a gigantic school library having books & magazines on Literature, Science, Economics, Social Studies, Travel, General Knowledge & other reference books.

DIGITAL CLASSROOMS

A good teacher knows that teaching is the art of helping students to discover things. If we want our students to actively participate in the process of learning, we need to combine use of modern media with effective pedagogy.

The Multiple learning Experience (M-LEx) is based on the promise that the student learns better through a variety of multi sensory experiences & instructionally sound activities including hands-on activities, discussions, debates, creative & critical thinking activities, collaborative research, field trips & use of multimedia. The instructional strategies are expected to help students engage actively with the curriculum. A well designed module permits a child to visualize a subject & grasp it better.

THE INFRASTRUCTURE

Gone are the days when a school meant just a basic construction of brick and mortar. Modern days have given birth to modern needs, and to satiate those needs, it is necessary for the foundation to undergo a metamorphosis. Scholar Mission School is the uncompromising outcome of the requirements of the post modern world. The architecture of the building focuses on space and symmetry, logic and innovation.

The school campus is a 'secure home' made possible by several cameras located strategically. The CCTV network covers beyond the concrete infrastructure such as into the sports fields, pavilion and even into the parking areas of the school. Modern-day technology ensures complete security for everyone in the school premises while the advanced fire safety system ensures complete protection.

THE CLASSROOMS

Here, there is room for abundant sunlight and happiness; the classrooms come with space and proper ventilation. Seats are arranged in a way that allows sufficient space for movement, sharing and team work.

THE ASSEMBLY HALL

Our Assembly Hall, provides the perfect platform for prayers, general meetings and extracurricular activities. The spacious assembly hall can accommodate a large number of students.

COMPUTER LABORATORY

Perfect recipe for success in the contemporary world is strong knowledge built with modern technology. The computer laboratory housing computers with the latest software not only aids the students to unravel their creativity but also in coping with today's fast-evolving challenges.

TRANSPORT

School comes closer to home with efficient Transport Department. This department is responsible for coordinating with the scores of school buses ferrying students and faculty members from different parts of the city to and from the school. Its additional task is to arrange vehicles for visitors, ferry the students of the school to picnics and excursions and to transport students to participate in interschool programmes at different venues. Each bus has a support staff and every driver is given a mobile phone to ensure easy monitoring of the routes covered with GPS.
